**Guide to the Niagara Falls City School District: Students Using  
Technology in School  
Grades 7-8**

Niagara Falls City Schools (NFCSD) provides a wide range of technology resources for student use. These technology resources are to be used only for educational purposes. This agreement outlines appropriate use and prohibited activities when using all technology resources and electronic devices as defined by school administrators. Every student is expected to follow all of the rules and conditions listed, as well as those given verbally by NFCSD teachers and administrators, and to demonstrate good citizenship and ethical behavior at all times.

The NFCSD uses a filtering system to track and monitor all computer and Internet use on the NFCSD network. The system is designed to prevent access to educationally inappropriate sites. NFCSD educators can request that a specific site be blocked or unblocked by contacting the NFCSD Service Desk.

It is important to understand that no filtering system is perfect. Due to the nature of the Internet and evolving technology, even with supervision, we cannot guarantee that students will not reach an inappropriate site. It is the student's responsibility to report any inappropriate site to the teacher.

Below are examples, but not an exhaustive list, of online conduct that may constitute a violation of federal and/or state criminal laws relating to cyber crimes:

**Criminal Acts:** These include, but are not limited to, "hacking" or attempting to access computer systems without authorization, threatening/harassing, email, cyberstalking, child pornography, vandalism, unauthorized tampering with computer systems, using misleading domain names, using another person's identity and/or identity fraud.

**Libel Laws:** Publicly defaming people through publishing material on the Internet, email, etc...

**Copyright Violations:** Copying, selling or distributing copyrighted material without the express written permission of the author or publisher (users should assume that all materials available on the Internet are protected by copyright) and engaging in plagiarism (using other's words or ideas as your own).
