

## Found Object Color Wheel

**Part 1:** Using objects that you find around your home, you are going to create a color wheel.

You need to find about **5 objects in each color** - Red, Orange, Yellow, Green, Blue, Violet. Once you've collected your objects, arrange them in a wheel. It's very important that they are arranged in the correct color order!

If you google "**Found Object Color Wheel**" or look at *#foundobjectcolorwheel* on Instagram, you will find lots of examples. You will find some examples on my Instagram @swiateks\_artroom

(Anshika's Example ^^)

**Part 2:** Write up a little summary about your piece. (5-6 Sentences)

Some guiding questions:

- How did you begin this project?
- How do the objects you've included show off your personality?
- Did you have any struggles with this assignment?
- Tell me about the overall process in your own words.

Take 1-3 photos of your color wheel, write up your reflection, and send both over (via email) to \_\_\_\_\_

**BE SURE TO INCLUDE YOUR NAME AND  
CLASS PERIOD IN THE EMAIL!!!**

## TIPS:

- Find at least 5 objects for each color.
- After you arrange your wheel, take a step back, and rearrange.
- Add more objects if one color seems small.
- Have fun and bring it things that show off who you are!
