

Famous Psychologists Project

Your task is to thoroughly research one psychologist and give a 5- 10 minute presentation to the class on these questions:

1. What that specific psychologist contributed to his/her field.
2. Explain how the psychologist theory worked
3. Relate their theory to your own life or life experiences

DO NOT simply read off a sheet of paper in your presentation but include handouts, discussions, poster boards, power point, youtube videos, or whatever you want to make it interesting. For example if you choose Hans Eysenck you must focus on his concept of his dimensions of personality. Make sure you focus on the specific contributions that made the psychologist world renown.

Some of the psychologists you may choose:

William Wundt Seymour Epstein

Gordon Allport Martin Seligmann

William James Carl Rogers

John B Watson Ludwig Binswanger

B.F. Skinner Aaron Beck

Albert Bandura

J.R. Kontor

Alfred Adler

Raymond Cattell

Hans Jurgen Eysenck

Karen Horney

Carl Rogers

Ludwig Binswanger

Aaron Beck
