## Lesson Dot Plots and Data Distribution <br> 16-4

## Reteach

A dot plot gives you a visual display of how data are distributed.

Example: Here are the scores Yolanda received on math quizzes: $6,10,9,9,10,8,7,7$, and 10. Make a dot plot for Yolanda's quiz scores.
Step 1: Draw a number line.
Step 2: Write the title below the number line.
Step 3: For each number in the data set, put a dot above that number on the number line.

Describe the dot plot by identifying the range, the mean, and the median.

Step 4: Identify the range. $10-6=4$
Step 5: Find the mean. $76 \div 9=8.4$
Step 6: Find the median. 9

Yolanda's Math Quiz Scores

Yolanda's Math Quiz Scores

Range: Greatest value - least value

Mean:
Sum of data values
Number of data values

Median: Middle value

## Use the data set at the right to complete Exercises 1-4.

1. Draw a dot plot for the data.

| Game Scores |  |  |  |
| :---: | :---: | :---: | :---: |
| 12 | 6 | 15 | 10 |
| 14 | 15 | 8 | 10 |
| 12 | 21 | 15 | 8 |

Game Scores
$\begin{array}{llll}14 & 15 & 8 & 10\end{array}$
$\begin{array}{llll}12 & 21 & 15 & 8\end{array}$

2. Find the range. $\qquad$
3. Find the mean. $\qquad$
4. Find the median. $\qquad$
