April 28th, 2020

Hi Pre-K Friends,

Candoo and Willdoo here again. How has your week been? Last week we talked about how listening and sharing make us better friends. What did you share at home this week?

Part of being a good friend is being kind. Can we let you in on a little secret? When we visited you in your classrooms we saw lots of friends being kind to each other. You used kind words with us, you raised your hands and you even shared your toys with us! That made us feel so happy. Let’s think of some ways that we can be kind at home: cleaning up after ourselves, using polite words and helping out. Those are all ways we can be kind!

Our Mom has been working extra hard to make sure that we are getting our school work done and that we are having fun at home. We decided to clean up all of our toys and make her a special card. She said it was so kind of us to do that and gave us a BIG hug! It feels good to be kind!

Here is a video we found on being kind. Let’s watch it together!
