May 5th, 2020

Hi Pre-K Friends,

Wow! Can you believe it’s been 6 weeks since we started writing letters to you! Candoo and I love that we’ve been able to tell you all about what we’ve been up to at home. You’ve really helped us remember a lot about being good friends.

Yesterday, we asked our Mom if she could take us to the park. She told us that right now we’re helping everyone stay safe by staying at home. We felt frustrated at first because we really love the playground. What can we do when we’re feeling upset or frustrated? That’s right! We took a big deep breath and asked Mom what else we could do to help keep people safe. She said we’re already doing so much to help out. We’re staying home, we play in our backyard instead of going to the playground, and we wash our hands a lot!

Mom found us a story to read called *Georgie and the Giant Germ*. Before we sit down to read the story, Candoo and I wanted to shake our sillies out. We found a song that we know you will all love! Keep washing your hands, friends! We miss you!
