

Niagara Falls City School District Enrichment/CAP/Accelerated Programs

Philosophy Statement

The Niagara Falls City School District has an ethical obligation to fairly and equitably identify, nurture, and support students who demonstrate academic potential. Students must exhibit intellectual capacity through multiple measures and a willingness to participate in programs that will lead to AP/College credit prior to High School graduation. Students will be expected to actively participate in coursework that is challenging, purposeful and rigorous.

Enrichment/CAP Program Purpose

The purposes of the courses within the Niagara Falls City School District Enrichment/Accelerated and AP Programs are to both challenge and support participating students in order to continuously prepare them for the next level of their education. This will be accomplished by providing enrichment opportunities to go deeper into core subject areas while integrating standards that are beyond the expectation for the course.
